Amazing, Entertaining AND Educational!!

By S. A. Smith

This very talented author makes reading facts and figures about sleep something to keep you up at night because it is so fascinating and fun to read! Mr. Randall gives a very succinct summary of a wide variety of aspects of sleep, from who you sleep with to the first CPAP made from a vacuum cleaner. Each chapter is a new adventure in another mystery about sleep. I borrowed the book from the library and after the 10th post-it marking a particular section I decided I needed to buy my own copy! If you or a loved one has sleep issues, this is the book for you. It gives enough description about each aspect that it can help identify what the problem might be and could send you in the right direction for professional help, all while giving you a great read.
