This book WILL improve your banking ability!

By David

How many times have you read in some book, some method or another that claims to improve your banking? Then you get to the table and it doesnt work reliably enough that you use the method long term? The "mirror" system is a classic example of useless banking info imo.

I am happy to report that Banking with the Beard actually has info that will improve your banking. You will learn how to gauge english when it transfers to the object ball, you will learn how cutting across the face of the ball on a bank imparts english and how to compensate. You will learn what Freddie calls "Automatics", banks that are dead from certain positions.

One shot that I will in particular bring up is Freddie's "Side Step Bank", a bank shot where you hit the ball with inside english and it shortens up the angle of the bank. The beauty of this shot is that you hit the shot with some firm speed and as such its alot easier to make under pressure. Once you practice this shot, the make percentage goes up towards 7-8/10 or higher :-)) I can tell you personally that this shot has saved me the cheese on more than one occasion and easily paid for the book many times over.

Banking with the Beard also has a lot of great gambling stories from the legendary pool room Bensingers in Chicago, Illinois. If you enjoy reading about big dollar action and the interesting shots that came out of those matchups, then this book is also for you.

The best book ever on bank pool!

By David C. Kraus

I've played pool for more than forty years and was born in bank pool territory--Cincinnati, Ohio. As a former Cincinnati Amateur Champ, I thought my knowledge of bank pool ran deep. Not so. Freddy Bentivegna's book taught me lots of things I didn't know, especially since I stopped playing pool for 26 years during my Air Force career. Freddy's tips brought me back up to speed in bank pool play. He's also a terrific commentator on Accu-Stat tapes and DVD, supplying background information that's interesting and informative. I hope one day to get to Chicago and play him a few games. I'll need a spot, of course.
