BEYOND DUALITY: THE ART OF TRANSCENDENCE BY LAURENCE GALIAN PDF

Beyond Duality: The Art Of Transcendence By Laurence Galian. Negotiating with reading practice is no need. Reading Beyond Duality: The Art Of Transcendence By Laurence Galian is not sort of something offered that you could take or otherwise. It is a thing that will certainly alter your life to life a lot better. It is the thing that will certainly offer you several things around the globe and this cosmos, in the real world and also below after. As what will be offered by this Beyond Duality: The Art Of Transcendence By Laurence Galian, just how can you bargain with the thing that has several benefits for you?

Review

"Laurence Galian has the delightful ability to take the abstruse language and dense imagery of traditional Hermetic ideas and transform them into something fresh and immediately accessible. Beyond Duality shows that Hermeticism does not have to be hidden, but can help people in living their lives." --Rachel Pollack, author of 78 Degrees of Wisdom

About the Author

Laurence Galian is a pianist, writer, lecturer, composer, and teacher. He holds the position of Senior Dance Accompanist at Hofstra University and has worked with many of the greatest dancers and companies in the world including Natalia Makarova and The San Francisco Ballet. He also serves on the Faculty of the Hofstra College of Continuing Education where he teaches Wicca, Qabalah, Ceremonial Magick and Welsh mythology. He is a professional Handwriting Analyst, Tarot Reader, Spiritual Consultant and a practicing Wiccan Priest with a special interest in Celtic Shamanism.

BEYOND DUALITY: THE ART OF TRANSCENDENCE BY LAURENCE GALIAN PDF

This is a book of Magick. It contains many buried treasures that have long lain hidden or unappreciated. In this book you will find the arts and techniques of utilizing magickal equilibrium for spiritual growth, personal power, and success. In part it is directed toward those practitioners of the Western Mystery Traditions, Qabalah, Chaos Magick, Ceremonial Magick, Wicca and Shamanism who want to expand their knowledge of the field. But it is particularly directed to everyone who wishes to bring balance and unity to their lives.

The large Afterword in this second printing of the book was edited by David Cherubim, author and editor for New Falcon Publications.

Some profound insights in a compact package

By Llew Christopher

Beyond Duality is a compact presentation of some very complex metaphysical topics. I recommend it mainly to people who have some background in metaphysics, the occult, magick or a similar path. Newcomers to the field can too easily pass right over some of the material without recognizing its value. Alas, it is all too easy for those with far more experience to do the same, as knowledge of this sort can only be partially transmitted

by the written word. That is, of course, the meaning of the first paragraph of the Tao Teh Ching, which is usually translated, "The Tao that can be spoken is not the eternal Tao..." Although Galian refers to the Tao in *Beyond Duality*, his techniques are rooted in the Western occult tradition, especially Hermeticism. A good companion volume to this book is the *Kybalion*, by Three Initiates, which discusses in some detail the theory of duality and how to transcend it. Galian is more concerned with practice than theory in this book, and he gives some very useful and original techniques. He calls his system, "the way of power." It's quite likely that other systems have similar, if not the same name (there being such a multitude of groups, schools and courses out there today), but names aren't very important. The most important technique Galian teaches is the Triangle of Manifestation, where he instructs readers on how to create something by making use of duality rather than having it work against you. As he puts it, "the secret of the Triangle of Manifestation is that we equilibrate our desired thought by thinking of its inherent contradiction." This is an extremely complex idea (dealt with by Aleister Crowley among others), and I wish he had gone into more detail with it. Still, it gives the reader a lot to think about and it forces you to come up with some of your own interpretations rather than relying entirely on the writer for answers. Perhaps this was his intent. Galian gives credit to a long list of people in the first chapter for having influenced him, and his approach to magick is quite eclectic. This is a good book for anyone interested in the problem of duality, perhaps the most basic philosophical question of all, and for those looking to enhance their ability to manifest what they want in their lives.

Where Was the "Beyond" Part?

By Aldyth Beltane

Beyond Duality was a very disappointing book for me, primarily because to me it seemed that the title itself was very misleading. I should have looked more closely at the cover photo, which expressed the actual content of the book far more eloquently, more closely. It depicts a fairly disenchanted looking woman and man on the cover, each eyeing the other with apparent non-comprehension. Which is exactly what this book is about - rather than going *beyond* duality, it seems to embrace it. It is my understanding that to truly evolve we need to confront and transcend concepts as male, female, top, bottom, and instead realize that there are simply people with different traits, needs, and personalities. This book is too quick to fall back into excuses and cliches that sound more like metaphysical rhetoric for "it's a _____ thing." The other exercises fall more into a just too obvious kind of category. Of course stairways go both up and down, and neither is better than the other (an actual example from the book.) I didn't find this insightful or useful. I suppose my disappointment in *Beyond Duality* stems from the fact that I expected transcendent, groundbreaking metaphysical ideas, and I got pop psychology of the "Men are from Mars, Women are from Venus" variety, and that was just the kind of outdated thinking I was trying to avoid. I prefer not to give negative reviews, but I also believe that people should have the opportunity to go into a book with a better knowledge of what they're getting. I hope this helps someone.

This is a wonderful Book!

By cresmoon@crescentmoongoddess.com

This book is wonderful! Well written & well researched! There is a great deal of information in this book to transform your life! Not only is it interesting, direct & easy to understand, it is a remarkable work of art! The author is truly brilliant!! I hope he comes out with many more books! His talent for writing is truly amazing! I highly recommend this book to anyone who wants to expand their knowledge in the spiritual realm & bring balance & harmony into their lives, this book is a must! The author teaches the reader how to heal, transform & bring balance & harmony to their lives through the buried treasures of magical traditions! You will learn about your arua, how to create "thought form", how to raise energy/power, sigils & talsimans, as well as healing & balancing yourself & your desires into a higher state of dimension in your spiritual life!
