Good book that I used to plan a trip to Europe. It's very thick though. It doesn't have anything other books don't, but it is handy to have all the info in one volume.

Touring Europe? Great Guide!

By E. Nemeč

My husband and I went on a tour of Europe, so most of the work was done for us. This book was a great supplement and had great tips for things to avoid on the tour. It was a quick reference and narrowed down sites to see, so we could make the most of the little time we had in each country. It doesn't seem like it would be enough, though, as your sole guide on Europe, if you're not on a tour.
