(Robinson) Girden* still comes to be the front runner as an excellent means.

Review

"The strategy of providing a research article, and then a set of questions without answers, and then the answers afterward, is a nice touch. . . I kept turning the page to see what Ellen wrote. I actually looked forward to Ellen getting into some good sleuthing. . . and inviting me, the reader, to follow the clues with her!"

Review

"I enjoyed the book very much. I particularly like the question-and-answer format with the text as you read the articles. The book can be useful not only in evaluating others' research, but also in evaluating your own work. The questions are ones we all should ask ourselves before we send articles off for review. The book also is helpful when students are writing their own research proposals for theses, dissertations, and other classes. It helps students review what should be in their own proposals and also what their instructors or committee members will be asking."

(Jennifer Greer)

About the Author

Robert I. Kabacoff received a bachelor's degree in psychology from the University of Connecticut in 1978

and a doctorate in clinical psychology from the University of Missouri-St. Louis in 1985. He completed a post-doctoral fellowship in family research at Brown University Medical School in 1986. In 1987, he joined the faculty in the Center for Psychological Studies at Nova University, teaching courses in psychopathology, family therapy, multivariate statistical methods, and statistical computing. From 1990 to 1993, he served as the Center's Director of Research Support and Training, and was promoted to Associate Professor in 1990 and Professor a few years later. In 1997, Robert moved to Portland, Maine to take a position as Vice President of Research with the Management Research Group, an international organizational development and consulting firm. His primary research interests are in the areas of diversity and leadership, cross-cultural issues, and the development of effective leadership in a global economy. For the past decade he has been actively engaged in research and consultation with academic, governmental, and business organizations in North America, Western Europe, Africa, and the Pacific Rim.

Great graduate source

By Tanya

This book is a researcher/graduate student staple. It is relevant for multiple uses. I cited it in my dissertation and many of my graduate classes. I highly recommend this book.
