Inside Healing Civilization, you will learn: (1) How we can promote individual healing by cultivating our “inner family” – a trinity of “Inner Father,” “Inner Mother,” and “Inner Child” that corresponds to our three centers, or “three brains”: thinking, feeling, and doing, respectively – and how we can foster a balance of the healthy values and virtues associated with each member of this sacred trinity (2) How society as a whole can transcend patriarchy to create a new consciousness that emphasizes self-knowledge and awareness, trust in human relationships and nature, spontaneity and pleasure, and the cultivation of the mind beyond the intellect (3) Why and how patriarchy arose – the history of our patriarchal society, how it still exists today, and why it’s hurting us (4) How a change in the way educators are trained can transform education to address the whole person of the child, and thus ensure a good future for our planet (5) Why healing civilization offers the promise of a loving, free, and harmonious human community – and how we can make it possible.

Courageous call by innovative scholar and practitioner

By Hazel Henderson

Healing Civilization is a courageous call by an innovative scholar and successful practitioner in nurturing human potential. Claudio Naranjo's therapeutic work is celebrated in Europe, Latin America and the USA. This book builds on his earlier works analyzing how human societies suppress individual creativity and potential through their child-rearing and educational practices. Dr. Naranjo points to the pervasive patriarchal structures and mindsets inherited from our distant past - but not inherent in humans. He traces these repressive authoritarian societies and how they overtook earlier matrifocal societies described by Marija Gimbutas and later by Riane Eisler in her *The Chalice and the Blade* and *Sacred Pleasure*.

As the feminist movements grew since the 1960s, more research has focused on patriarchal structures and mindsets in religions, academia, corporations, bureaucracies and within families. Both female and male

scholars have noted the repression, fear and aggression leading to violence that is engendered by these patriarchal societies which still pervade humanity world wide.

Philosopher-psychologist Dr. Jean Houston provides an insightful Foreword to Claudio Naranjo's book. I welcome this book as a student of the pioneering work in reforming education of Naranjo, Houston, Eisler and Elise Boulding and Daisaku Ikeda. As a fellow workshop-giver with many educational leaders at the famed Esalen Institute in California, I highly recommend this book at a time when our human family worldwide is in need of deep therapy.

I welcome the debate that will be engendered by Healing Civilization, as it may help us devise paths toward development and fostering fully-alive, compassionate, empathetic human beings who can evolve toward the Planetary Citizenship I and the Buddhist leader Daisaku Ikeda described in our book in 2004.

Dr. Naranjo should take heart that many around the world have taken up the vital task of reforming markets, money-creation, credit-allocation and capitalism itself, from the UN Principles of Responsible Investing (representing \$20 trillion of pension fund assets) and the UN Global Compact's 10 Principles of Corporate Citizenship to my own Ethical Markets Media efforts to reform markets and grow the new more ecologically and socially aware "green" companies of the post-fossil fueled Solar Age.

Hazel Henderson, author of Ethical Markets: Growing the Green Economy and Planetary Citizenship: Your Values, Beliefs and Actions Can Shape A Sustainable World

Good book

By Mir

I had to read this book for a law class and it was a complete reality check for me. The book describes the world as it is and how this civilization will always be infected with an unknown disease. The author goes into full detail about great things to make the world a better place. I recommend this book to anyone into politics or law and even teaching because it may just surprise the average teacher.

An awakening

By Ruby Chung

On a journey that aims to educate and enlighten without being pompous or yawning. This book put into clarity what I see happening all around me. One would have to be blind not to notice what is happening to the world run by a patriarchal society.
