I love her! Everything you couldn't find in the other Guides is right here-even places to do your laundry with awesome maps!

I love this woman. I usually give four stars but this guidebook is superb and is written by just one woman. It describes things that you don't get in Lonely Planet or Rough Guide-Especially an entire word and phrase section which covers the gamut of what I wanted to know how to say-AWESOME! She also includes easy maps-not those confusing city maps containing things you would never need but maps easy to read with laundry services! I love her! This guide gives a detailed history of the country and its diverse inhabitants and it describes in detail eco-tourism, budget options, staying with families with links to websites, off the beaten path destinations in cool mountainous regions which is exactly what I was looking for and city sights and

night life. Thank You for this book!
