Review

"His paradigm for pedagogy's interaction with video and his helpful sections on effective video creation give the reader a philosophical as well as a practical grounding in the use of video in academic settings. ... I see this philosophically and technically practical book being relevant and extremely useful for many years to come for educators in higher educational contexts." ?Reflective Teaching

"All in all this book provides a good overview on possible approaches when it comes to production of video for teaching and learning. It is a good resource for educators new to video making as well as more experienced video producers. Frameworks and pedagogic theories from the literature are mixed well with hands-on tools and models, which enable the reader to get going immediately with his/her own video production." ?
