It's a good book

By Usman Shakil

I needed to get this book for a course I'm taking, and I have to say it is really well written. Can't say it's on my favorite subject, but it's light enough that I can read it without feeling a headache afterwards. I can't think of any reason why anyone would want this expensive book if they didn't have to buy it. It makes this review kind of moot, doesn't it? I mean, you're looking at this book probably because it is required for your sociology course or something. You have no choice but to buy it. If you're one of the few who wants it for fun, well, it's a fine book. Enjoy.

Great book. Covers a wide variety of social inequalities ...

By Claudia

Great book. Covers a wide variety of social inequalities that are incredibly important for all to understand. Government spending, why the poor are poor, gender inequality. Well-rounded read and definitely recommended.

You have to really concentrate on the wording a few ...

By Viviana Fernandez

You have to really concentrate on the wording a few times to understand. It's not difficult, but it's not the simplest sociology book that I have read.
