This is why on-line book [The Eighth Born: Book 1 Of The Pankaran Chronicles By C.S. Night](#) ends up being most wanted.

THE EIGHTH BORN: BOOK 1 OF THE PANKARAN CHRONICLES BY C.S. NIGHT PDF

The gods created the elves, dwarves, gnomes, and humanity—granting all but humans an inherent magic power. But with the encouragement of the goddess Persuasion, the magical races soon turned on the humans, pushing the magic-less race to the brink of destruction.

In response, the gods chose to abandon the mortal world for Heaven. Before leaving, however, they gave mankind a gift to restore balance—a few select individuals with the power to actively wield magic. Persuasion, for her crimes, was banished to Limbo.

Since then, the exiled goddess has made only one attempt to free herself, enthralling the human sorcerer Taida in a scheme that destroyed both a kingdom and the powerful Pankara Stone that the goddess required for escape.

The young magic-wielder known as Rhyen Hyldhem, newly graduated from the great Academy in Ikha, knows of the story of Taida—but such events occurred millennia ago.

As war brews, however, Rhyen will learn more about his powers...and the identity of the fearsome Dark Rider who has stalked him since childhood. Rhyen is about to discover the past isn't dead—and that his destiny is intricately tied to Taida's betrayal of humanity.

Keep Trying

By Closet Loser

Meh it's alright- 2.5 stars. Pretty standard in a lot of ways I think, and I was pretty frustrated by the end. The main character is 28 by the end of the book and still whines like a teenager. I don't believe it's quite as bad as some of reviewers suggest, but I also don't know how some gave it a 5 star rating unless they've never read this genre. Not a ton of challenges or heartache, and the premise of automatically being given incredible superpowers just doesn't seem genuine.

Reads like someone's first attempt at a novel

By RedRaven29

Reads like someone's first attempt at a novel, based on a college student's wish-fulfillment fantasy. Basic sentence and paragraph construction is fluent, so the author should keep trying. But this one should not have been published.

- Protagonist gets magic powers including immortality, plus a cuddly pet horse, plus infinite money, plus unearned gratitude from villagers, plus magic prevents obesity and can eat 2 desserts every day. Protagonist considers this "awesome".
- Nothing happens. Hero is never in peril and has no love interest (except cuddly horse and easy-going wizard teacher) for the first 3/4ths of book.
- I think the author researched the middle ages by watching Disney movies, rather than by reading history. This world has working magic and Gods that actually exist, but there's no church mentioned. Also no witch-hunts, no inquisition, no slavery, no peasant revolts, and no plagues or famines.

Good book

By Joshua L Uhinck

Not bad, not amazing. Character development is meh, World building ok, and plot line predictable. That being said I will probably read the second book when I come across it.
