Magical Little Book...

By jennacide

This book is a great resource for someone starting out on a hearth/kitchen witch path, or for those building a library of Kitchen Witch resources. There is a chapter for each sabbat, with a variety of seasonal recipes for each, as well as corresponding crystals, incense, and a ritual. There are also resources on stocking a magical kitchen, basic recipes for cooking essentials (stock, bread, rice) a convenient herb and spice guide, and also a magical flower guide. The last chapter has information on natural cleaning, lotions and potions. It is only a

few pages, so I wish this chapter could have been longer. I would have also liked to see a chapter on moon phases and cooking. Overall, this book is nothing groundbreaking, but it's nice to have all of this information in one place, and the recipes look good, easy, and seasonal (haven't tried any yet). The recipes have both US and Metric units, which is helpful. One of the things i love most about this book are the sweet illustrations on most of the pages. Overall, this is a beautiful addition to my cooking library.

Great Find

By Julie Kindt

This book is laid out well, interesting, organized, and enjoyable to read. It has history, culinary and magical uses for herbs and spices, and many great recipes that are organized by each festival. The recipes are with common household foods, herbs and spices. I don't have to go searching for crazy, unheard of items.

The best kinda of witch to be...

By Christanna U.

Every kitchen should have this book. I spend most of my time in the kitchen and I'm always looking for new and interesting ideas for things to make. This book was very well organized and laid out. I was almost afraid that some of the ingredients would have to be found in specialty shops but I have yet to come across anything like that in this book.
