Not bad, but not the best

By K. M. Puhl

This is definitely one of the older books I have on Tutankhamen, and not the best--my favorite is the T.G.H. James. This is fine, but just doesn't have either the gorgeous pictures or the thorough, in-depth text to recommend it. If you're interested in pictures, get James. If you're interested in history... tell me if you find a good one.

Still a Real Treasure!

By Friend of Ancient Egypt

This book is the companion catalog to the Tutankhamun exhibit that toured six American museums in the late 1970's. It is rich with stunning photographs taken from the original glass negatives of the 1922 dig and vivid color photos that are still unsurpassed by today's digital imaging. The majority of artifacts of this 70's era United States tour were, unfortunately, not included in the recent 2006 exhibit. One such object is Tut's gold funerary mask that, by modern Egyptian law, can no longer leave the country.

The objects included in this book are the pinnacle of artistic and aesthetic beauty recovered from the tomb and rarely seen in other volumes on Tutankhamun. The range of subject matter is wonderful in archaeological content describing each object (in the order it was excavated), historic significance and meaning of ancient Egyptian religious and cultural themes. Several commentators are listed as authors because of the different cities the exhibit visited. Full credit belongs to I.E.S. Edwards, Former Keeper of Egyptian Antiquities at the British Museum. He has put forth a superlative commentary on the discovery of King Tutankhamun's tomb and the world in which he lived. This book is a "must have" for anyone interested in Tut's finest objects as well as a great "mini"-reference in Egyptology.

What continually surprises me is the availability of this work at a price that is reasonable and usually lower than the original modest \$8.95 (US) selling tag. It is a marvelous photographic record that will keep you looking time after time into the splendor of, arguably, the most famous of Egyptian pharaohs. A MUCH better book than the last US tour exhibit guide from 2006 or souvenir books by Zahi Hawass "Tutankhamun and the Golden Age of the Pharaohs: Official Companion Book to the Exhibition" sponsored by National

Geographic.

This book is available under several similar titles (hardbound too)including: The Treasures of Tutankhamun., Tutankhamun: His Tomb and Its Treasures. Search under "Treasures of Tutankhamun" for best results.
